ABOUT VERBATIM

For over 45 years, the Verbatim brand has been at the forefront of the evolution in data storage technology and remains one of the most recognisable and respected names in the industry. Not only is Verbatim the world's No 1 supplier of optical media (Blu-ray, DVD and CD), it also markets external hard drive storage solutions, SSDs, USB drives, memory cards, and a wide range of related accessories. The company has a strong reputation as a trusted global supplier providing quality products backed up by a fast and reliable service.
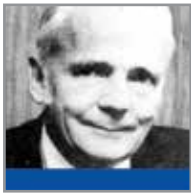

Another important business category for Verbatim is LED lighting where it develops and sells a wide range of LED lamps and luminaires to professionals and consumers. It is also an emerging supplier of water filtration systems; its Cleansui brand is Japan's favourite water filter. Most recently Verbatim has introduced a range of high quality filaments for use in 3D printers.

Verbatim is a subsidiary of Mitsubishi Kagaku Media which is owned by Mitsubishi Chemical Corporation (MCC), one of the world's largest chemical companies. MCC invests heavily in R&D across many diverse sectors and Verbatim continues to benefit from technologies that are developed by its parent company, particularly in the areas of optical media, LED, water filtration and 3D printing. MCC's operating principles are founded on the company's **KAITEKI** philosophy which strives to help people live in a healthy, comfortable and sustainable way.

CONTENTS

KEY MILESTONES

1974
First 8" diskettes produced.

1985
Aquired by Eastman Kodak.

A MITSUBISHI KAGAKU MEDIA COMPANY

1993
Introduction of CD-ROM and CD-R disks, CD-R AZO Technology and SRAM cards.

1969
Verbatim incorporated as Information Terminals Corp. (ITC) - April 28, 1969.

1981
First monthly production of 1 million floppy disks.

1990
Mitsubishi Chemical acquired Verbatim and invested in the business.

2004
Blu-ray BD-R/RE, DVD 16x and DVD+R Double Layer 8.5GB, CD-R 52x LightScribe launched (first in market for all)

2001
DVD+RW production started (first in the market).

Memory Cards launched.

1995
Acquisitions of Laser Technologies and Ecotone. CD-R production started at MCI in Singapore.

2007
Verbatim globalises corporate identity. Aquisition of SmartDisk and launch of External HDD Business.

2002
DVD+R and CD-R Ultra Speed 24x products launched (first in the market).

Start of sales of USB Drives.

1999
Restructuring and establishment of the MKM/Verbatim Group. DVD-R & DVD-RW launched.

2009

Blu-ray Dual Layer, SDHC & MicroSDHC, Multimedia HDD, RAID HDD & Colour HDD launched.

FREECOM
INNOVATIVE GERMAN QUALITY

2010
Launch of LED Lighting business utilising technology from Mitsubishi Chemical Corp.

2012
Cleansui Water Filters launched in Europe.

SSD Launch.

VxRGB
LED LIGHTING

2015
M-Disc collaboration. Introduction of 1000yr archival media

THE KAITEKI COMPANY Mitsubishi Chemical Holdings Group

helping people to live in a healthy, comfortable and sustainable way.

M DISC

2014
Launch of PLA & ABS 3D printing filaments.

CHOOSING THE RIGHT TYPE OF STORAGE

We are all creating and consuming more and more digital content than ever before with our smartphones, tablets, laptops and computers - photos, important documents, videos, music, vouchers, newsletters, boarding passes, contact information and more - but are we keeping it all safe?

What would happen if you lost it all?

Choosing the right type of storage is dependent on a number of factors.

The table below should help you in your selection.

STORAGE TYPE	LIFETIME	PROS (+) & CONS (-)	BEST FOR...
Optical Media (Blu-ray, DVD, CD)	25-1000+ years	+ Very long lasting storage + Low cost + Permanent storage – can't be accidentally erased + Non magnetic + No moving parts + Backwards compatible - A bit slow/fiddly to save	Keeping things forever. For photographs, family videos, and important documents – basically things you can't afford to lose.
HDD	5-10 years	+Large capacities available + Low cost per gigabyte - Hard drives possess moving parts so can be susceptible to breaking if dropped	Large volume, regular backups such as backing up home and office computers.
USB Drives	3-10 years	+ Very convenient + Low cost + Easy to use - Not designed for long-term storage	Temporary storage and physically moving data from one location to another.
SSD	3-10 years	+ Very fast + No moving parts - High cost	Adding capacity to SSD ultrabooks / laptops.
Memory Cards	3-10 years	+ Designed for specific devices - Not designed for backup or file transfer - Easy to lose	Capturing images / video. Expanding memory of smartphones or tablets
The Cloud	?	+ Data can be accessed virtually anywhere, anytime - Speed & accessibility dependent on Internet connection - Where is your data / who else can access it? - Will it always be there? - Uncertain long-term cost	Access and mobility

USB DRIVES

With a wide range of award-winning designs and features, Verbatim's selection of USB drives are perfect for storing and sharing data – safely and securely. All Verbatim USBs are backed by a Lifetime Limited Warranty.

Metal Executive USB 3.0

HARD DRIVES

Verbatim hard drives feature Nero BackItUp software that allows full system backup and restore functions. Each USB 3.0 drive also includes Green Button Software, saving power when the drive is not in use as well as the Formatter Software that allows users to easily change the format of the drive from HFS+ to NTFS or FAT32, based on their own requirements. USB Rec&Play** allows your drive to act as a video recorder via USB, recording, playing back and even pausing live TV.

49976	CD/DVD Paper Sleeves 100 pack

OPTICAL TECHNOLOGY

When drive manufacturers test their products, they use Verbatim media. Its the global No.1 for a reason - guaranteed quality!

M-DISC™ ARCHIVAL DVD R AND BDR

M-Discs have a projected lifetime of several hundred years (based on ISO/IEC 16963 testing) which makes them ideal for storing your most precious documents – files that you simply cannot afford to lose or become damaged. Unlike traditional optical media which utilize dyes, data stored on an M-Disc is engraved on a patented inorganic write layer which will not fade or deteriorate. This unique engraving process renders these archival grade discs practically impervious to environmental exposure, including light, temperature and humidity.

See www.verbatim-europe.com/m-disc for more info.

CORE TECHNOLOGIES

Verbatim has always been at the forefront of technological innovation.
We are able to maintain our leadership and market the very latest
products and technologies due to the extensive research and
development that is undertaken by parent company Mitsubishi Kagaku
Media in Japan.

We pride ourselves on our 'Core Technologies'.

AZO — Ultimate resistance to UV light for increased protection and reliability. High quality picture and sound with more than 100 years archival. Used in BD-R LTH type, DVDR and CD-R discs.

SERL — A special recording layer present on Verbatim's CD-RW, DVD/ RW and BD-RE media that ensures noise-free recording time and time again.

HARD COAT — A specially created tough coating for DVD media and Blu-ray Discs that is superbly resistant to harmful scratches.

CRYSTAL — A tough, clear surface layer for increased protection against accidental surface damage.

M•A•B•L — Metal Ablative Recording Layer. A specially created inorganic recording layer present on Verbatim's BD-R media ensures excellent recording compatibility and prolonged stability for archival life.

Medi Disc — CD-R and DVD-R targeted toward the medical industry for storing valuable patient information. Using tighter specifications for better compatibility and recording quality. Uses AZO.

PROFESSIONAL OPTICAL MEDIA

- 66.7% tighter specifications than standard discs
- AZO dye ensures excellent read and write performance
- High quality photo and sound storage recording quality
- Superior archival stability that lasts for generations

QUALITY CONTROL

Verbatim and Mitsubishi's demanding quality control during the manufacturing process guarantees first-class products. The company delivers products and services that exceed customer expectations by leveraging its technology leadership, marketing expertise, and state-of-the-art distribution capabilities.

GLOBAL NETWORK DISTRIBUTION

Our operation is truly worldwide with offices, R&D, manufacturing and warehousing facilities spanning the globe. In EMEA, our sales and marketing offices are located in or close to the key cities of London, Frankfurt, Milan, Paris, Copenhagen, Johannesburg, Moscow and Amsterdam.

EMEA WAREHOUSING AND OPERATION

In Europe, we operate out of our state-of-the-art central warehouse in Osnabruck, Germany, which has excellent rail, road, river and sea access. We also have a dedicated warehouse in Johannesburg which services the Sub-Sahara African region.

FREE OF CHARGE HOTLINE SERVICE SUPPORT

To maintain and deliver our promise of guaranteed customer satisfaction, we offer free of charge hotline service support.

EUROPEAN WARRANTY

Verbatim warrants its products to be free from defects in material and workmanship. If a product is found to be defective within the warranty period (defined below by product category), it will be replaced at no cost to you. You may return it with your original receipt to the place of purchase or contact Verbatim.

LIMITED LIFETIME WARRANTY: (OPTICAL MEDIA, FLASH MEMORY PRODUCTS)

2 YEAR LIMITED WARRANTY: (3D FILAMENTS, HARD DRIVES, ACCESSORIES)

3 YEAR LIMITED WARRANTY: (LED LIGHTING)

For further information please visit www.verbatim.com/warranty

OTHER PRODUCT CATEGORIES

3D PRINTING

Verbatim provides top grade 3D printing filament, manufactured to very tight tolerances, made from the highest quality materials to ensure consistent feeding and stable prints. In addition to a range of PLA and ABS filaments, Verbatim also sells special filaments which have been exclusively developed by the Mitsubishi Chemical Holdings Group.

LED

Verbatim supplies a broad range of high quality LED lamps and luminaires for consumers and professionals. They offer outstanding light performance for a wide range of applications, significantly reducing energy and maintenance costs. Verbatim LEDs often utilise unique technology developed by parent company Mitsubishi Chemical Corporation.

WENGER

With a history rooted in the Swiss Army Knife, Wenger has been a trusted brand for over a century. Verbatim has an exclusive distribution agreement with Wenger to sell the high quality luggage and travel bag range into a majority of countries in Europe.

CLEANSUI

As part of the Mitsubishi Chemical Holdings Group, Verbatim is proudly marketing and selling Cleansui filter products in Europe and Africa on behalf of Mitsubishi Rayon Cleansui co., Ltd.

Cleansui's unique Hollow Fibre Membrane Technology removes fine particles upto 0.1 micrometers present in water including; bacteria, cryptosporidium, algae, rust and other microorganisms.

Removes
99.99%
of Bacteria!
